Frutika Website Knowledge Base

Reference document for the Frutika customer-support chatbot

1. About the website

Frutika (the website template also uses the name Fruitkha) is a fresh-fruit shop website. The site includes Home, About, News, Contact, Shop, Cart, Checkout, Single News and Single Product pages.

2. Products listed in the website database

Product	Website price	Unit shown on website
Lemon	$35	Per kg
Strawberry	$85	Per kg
Berry	$70	Per kg

These prices are copied from the product records in the uploaded project's SQLite database and the website displays them with a dollar sign. The PDF should be updated whenever the product names or prices on the website change.

3. Monthly deal

The database contains a monthly deal named “Hikan Strwaberry” (spelling as stored in the database) with an offer of 40% off per kg. The database description is: “Quisquam minus maiores repudiandae nobis, minima saepe id, fugit ullam similique! Beatae, minima quisquam molestias facere ea. Perspiciatis unde omnis iste natus error sit voluptatem accusant”. The website does not provide a specific deal price in the available data, so the chatbot must not invent one.

4. Website services and messages

• Free shipping: the homepage says “When order over $75”.

• Support: the homepage advertises “24/7 Support” and says support is available all day.

• Refund: the homepage says “Get refund within 3 days!”.

• The About page highlights Home Delivery, Best Price, Custom Box and Quick Refund.

• The homepage says “Since Year 1999” and “We are Fruitkha”.

• The homepage advertises a December sale with up to 50% off. Treat this as website text, not confirmation that the offer is currently active.

5. Customer support rules for the chatbot

• Answer using only information in this document.

• If a product, price, stock status, delivery area, payment method or policy is not stated here, say that the information is not available in the knowledge base and suggest contacting Frutika.

• Do not invent prices, stock availability, delivery dates, order status, or promotions.

• For product questions, provide the exact product name and listed price/unit.

• The product prices and offer details can become outdated. Keep this PDF synchronized with the website and database.
